

ECTE250 Deliverable 1 Proposal Presentation Marking Sheet

Can black box
tricklet bounding line

Marker's Name:	MARY VARGHESE
Team E:	GANGA RAJ
	JUNAID FOLAMI ODUOLA
	YUSUF MAHER MAHMOOD
	EBRAHEIM PASHA

Comments
<p>- Flashed out & black diagram don't match</p> <p>- Missed the name for second project?</p> <p>- Battery calculation? why not connect to power</p> <p>- Missing market research for Can black box</p> <p>- Very good potential for second proposal.</p>

Team Marks				
Structure: presentation flow, timing, inclusion of introduction, main body and conclusion.	Content: Was the content relevant? (see below)	Visual Aids: Appropriate use of diagrams and illustrations.	Questions: Ability to answer questions clearly and concisely by all team members.	Total marks
Mark (/5)	Mark (/5)	Mark (/5)	Mark (/5)	Mark (/20)
3	3	4	2.5	12.5/20

Which project do you think should be selected? (aligned with theme and requirements, feasible within allocated time and budget):

Content Required for Deliverable 1: Minimum 2 maximum 3 project proposals: each should include:

- Description of the project and key functionalities.
- Justification on how the proposed system aligns with the theme.
- Preliminary design (block diagrams, flowcharts, state charts, etc.).
- Justification on how the proposed system aligns with requirements and constraints.
- Estimated prototyping (parts) and labour cost.
- Prospective market and impact.

Marking Guide:

- 1: Very Poor - Most of the criteria is not met.
- 2: Poor - While most criteria are met, it is not of a satisfactory standard.
- 3: Average- All criteria are met to an acceptable level.
- 4: Good - All criteria are met and the presentation is of a good standard.
- 5: Very Good - All criteria are met and the presentation is of a very good standard.

Themes

The development of products interfaced to the Internet that make use of sensors, actuators, display and programmable devices, i.e. Internet of Things (IoT) and their applications. The major sub-theme for this year is IOT and their applications:

- In transport and traffic management
- In health (aged care – dementia etc)
- In manufacturing industry (IR 4.0)
- In humanitarian engineering (low cost engineering solutions for those in need)
- Similar IOT applications above
